AGROFERT Group

AGROFERT, spol. s.r.o. was established on 25th January 1993 as a company focused on trade with fertilizers. At the time of its establishment the company had only four employees.

AGROFERT, a.s. currently consists of more than 256 companies which are active in several sectors such as chemical, food, agricultural, ground machinery & technology, forestry & timber, renewable energy sources and media. The shareholder's equity is over 1.7 billion EUR.

The AGROFERT group employs nowadays a total of 34 thousand people and it is the largest private employer in the Czech Republic. According to the CZECH TOP 100 association, AGROFERT is the third most important company and the third most admired company in the Czech Republic.

AGROFERT is the largest group in the Czech and Slovak agriculture and food sector. It is the fourth largest entrepreneur by the revenues, the fourth largest Czech exporter and the second largest chemical group in the Czech Republic. It ranks second among the producers of nitrogenous fertilizers in Europe.

AGROFERT is also the largest Czech investor in Slovakia and Germany and a significant investor in Hungary.

Successful functioning of the whole group is based on long-term relationships with business partners, high-quality work of experienced managers, experts and hardworking people, business flexibility and maximum use of synergies in the group.

Primary production

The backbone of the primary agricultural production part of the AGRO-FERT group is formed by companies which are active in the production of basic commodities for food production, processing industry and final consumers.

We place a strong emphasis on the value-added production in our own manufacturing sector as well as within the EU.

Media

The youngest segment of the AGROFERT group comprises the products from all areas of the media market (print, internet, television, radio) and e-commerce.

We also offer services in the areas of out-of-home advertising, newspaper and magazine printing, other types of printing and services in event management.

A photograph of a family of four walking through a lush green field. The father is on the left, wearing a light blue short-sleeved shirt and plaid shorts, holding the hand of a young boy in a blue striped shirt. The mother is in the center, wearing a white tank top and a teal patterned skirt, holding the hand of a young girl in a pink dress. They are all smiling and walking towards the camera. The background shows rolling green hills and mountains under a blue sky with scattered clouds.

Corporate social responsibility

Our CSR strategy is based on more pillars due to a wide range of the group activities. The following overview refers to our major objectives and activities in each of them.

In the year 2014 we published the first Corporate Social Responsibility Report which comprehensively presented our activities in terms of context, numbers and stories.

You may download this report in Czech and English version at www.agrofert.cz.

We regularly consult our efforts and strategy in the fields of corporate social responsibility and sustainable business with specialists, learn new things and compare our group with other companies within the platform Business for Society, of which we are a member.

Economic area

2015	1.08 M EUR
2014	844 K EUR
2013	1.05 M EUR
2012	247 K EUR
2011	CREATION OF THE FOUNDATION

In the AGROFERT group we understand that the companies do not only generate profit and that they are an important employer in respective regions, but they also have responsibility towards their surroundings.

We therefore decided to establish the AGROFERT Foundation in 2011, which integrated already existing charitable activities of the whole group into one long-term strategy.

Children and the youth

Investment in childhood and the youth, their development and education is one of the most important. We support children and young people who have courage and strong intentions and the barriers they have to face do not discourage them from their efforts – whether physical or mental impairment or circumstances, which do not contribute to any ambitious objectives.

Development of regions

The AGROFERT group belongs to the largest employers in the Czech Republic. It stands to reason that we intend to contribute to the development of the whole region and the local community where our companies operate.

The companies of the group have contributed almost 3.6 million EUR to the Foundation activities. Within three years of its existence, the AGROFERT Foundation has donated over 3.09 million EUR to the projects covering the full spectrum of activities of non-profit organizations.

The Foundation assistance focuses mainly on the support of projects whose aim is development of one of the following areas:

Health and care

“Health is the most important thing in life”. We support not only institutions and organizations which provide medical care and help patients and their families, but we are also committed to projects focused on prevention of serious illnesses and promotion of science and research.

Support to disadvantaged and handicapped citizens

“A disability does not necessarily imply a handicap”. We intend to help people whose life is so difficult that they do not have the strength for anything else than just life itself. Human dignity, whether we are ill or old, is for us the most important value.

SPORT CENTERS
AGROFERT
FOUNDATION

FIREFIGHTERS'
FUND

Significant projects

Support of physically, mentally disabled children or children disabled by the circumstances in which they grow up

Each year, the AGROFERT Foundation publishes calls for grant applications which are focused on the support for organizations that help children with different types of handicap. We are one of the few foundations which contribute to running costs of these organizations and thereby in many cases to their viability.

Sport Centers established by the AGROFERT Foundation

The project „Sport Centers established by the AGROFERT Foundation“ is mainly designated for children from socially disadvantaged families who cannot do any team sports or other activities due to the low incomes of their parents.

The AGROFERT Foundation organizes sport activities, which do not give them many opportunities to idle around or spend too much time at their computers after school, but they commit themselves to sports. Trainings are led by experienced instructors, and the fact that the children do not need to commute anywhere as all activities are organized at their schools is another great advantage. The offered sports are suitable both for boys and girls: basketball, floorball, volleyball, handball and athletics. In the year 2015, over 2 024 children were engaged in sport activities at 68 sport centers.

Firefighters' Fund

In the year 2015, the AGROFERT Foundation started activities of the Firefighters' Fund intended especially for

voluntary fire services, organizations and associations. The fund contributes to the purchase of instruments, machinery or equipment and it also supports activities in the field of emergency and rescue activities, firefighter sports, work with children and the youth, organization of social, sport and cultural activities in the region or activities supporting traditions of firefighting.

Crisis Assistance Fund in cooperation with the Tereza Maxova Foundation

The mutual project of the AGROFERT Foundation and the Tereza Maxová Foundation “Crisis Assistance Fund” was initiated in the autumn 2013. The aim of this Fund is to give a helping hand and effective assistance to families who are at risk of their children being taken into institutional care. The core of the Fund's activities is to prevent unwanted removal of children from their families, and to provide targeted assistance to families that have fallen into difficult social or other threatening situations.

Fund for single parents

The fund supporting single parents in emergency situations is an independent project of the AGROFERT Foundation. The Fund is intended for lonely single parents raising one or more children (biological, adoptive or foster children). We support mothers and fathers who despite all efforts ended up in a difficult situation and who actively try to find a constructive way out of it. The fund contributes most frequently to rents and energy related to accommodation, school lunches, garderies, basic furnishings, education and extra-curricular activities for children. Every year the employees of the AGROFERT Group

support the children of single parents in emergency situations by the collection of Christmas presents and in cooperation with the Kroužky agency, the stay at summer camps has been prepared for them.

Most contributions of this Fund are covered directly from the AGROFERT Foundation appropriations and the whole Minister's salary of Mr. Andrej Babiš is sent to the Fund's account as well. Individual donators and organizations are being added. The AGROFERT Foundation decided to pay attention to single parents in particular with a view to the fact that bad financial situation of these parents strongly influences children who grow up with them. The children disadvantaged by these circumstances become socially isolated and they often end up on social securing contributions without any perspectives of future employability.

we help with our heart

Did you know that...

...ca. 22 % of Czech children live only with one parent, i.e. approximately 400,000 children?

...33 % of children from single-parent families live at risk of poverty and the second parent does not pay child maintenance?

...the Czech Republic is among the EU countries with the highest proportion of single mothers in total population?

...average amount of the monthly child maintenance is between 72 to 144 EUR?
